

Premo Door

The **Premo door** is our strongest flyscreen door. It has a frame constructed from heavy gauge extruded aluminium, creating a strong and rigid screen door.

Available as... Premo doors are available in fully manufactured form.

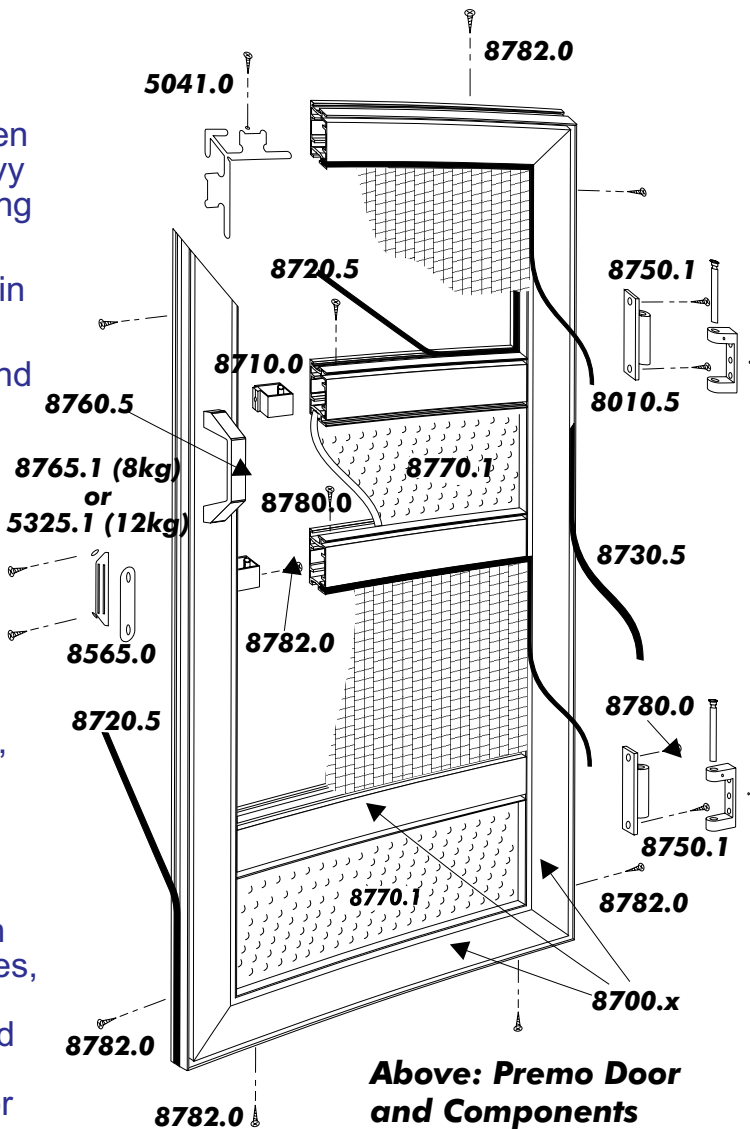

Colour - Frame colour, grille, kickplates, and pushplate are all coloured white.

Above: Premo Door (Style D with half grille.)

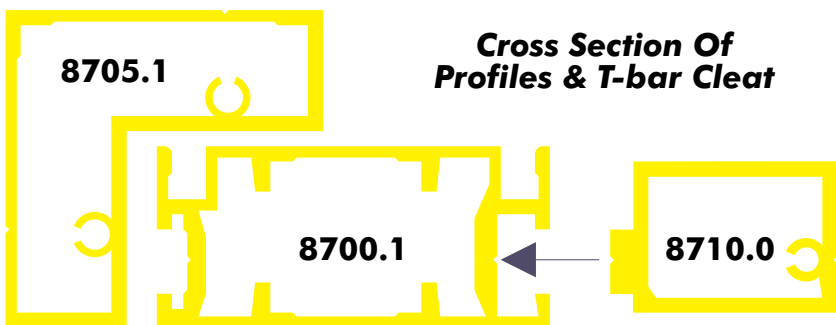

Subframe - A rigid subframe is available, this helps overcome projecting handles and uneven surfaces and door frames, also this allows reveal fitting.

Style Options - The Premo door can be fitted with optional kickplates, solid panels, security grille and security mesh if desired, to half or full height.
