

Regal System

(Multi Purpose Screen, Doors & Windows)

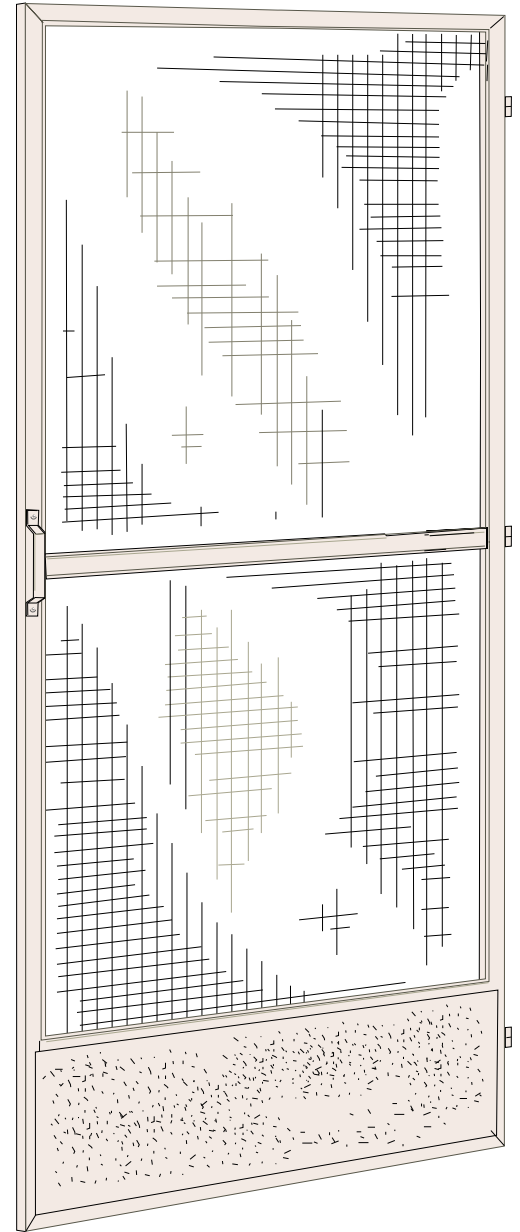

Strong extruded powder coated white aluminium profile for rigid support. For use on window and door screens.

Fixed, hinged, sliding or lift off options.

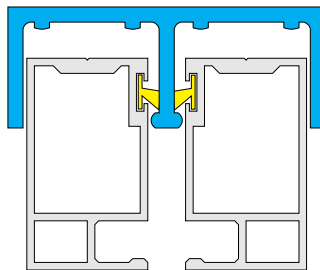

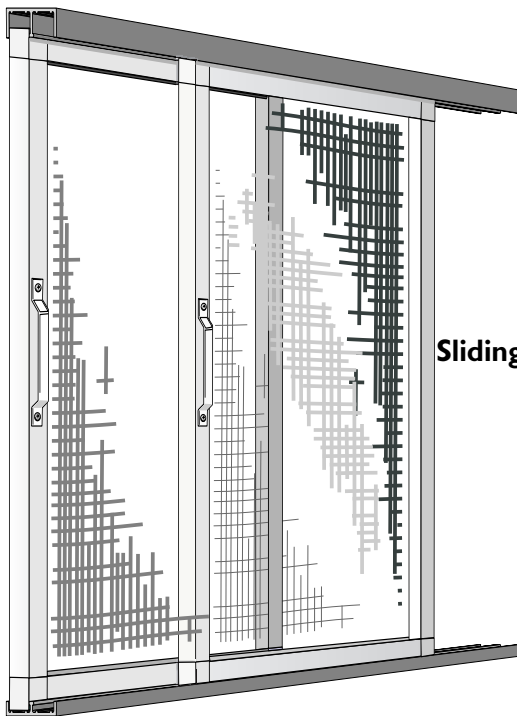

Built in wool pile provides seal against existing frame.

An aesthetically pleasing profile for application to windows or doors.

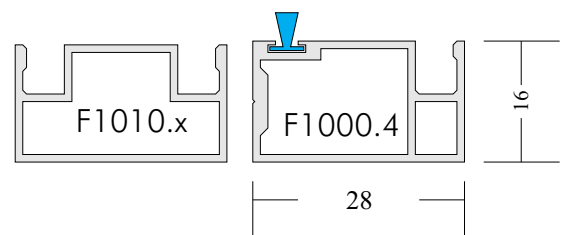

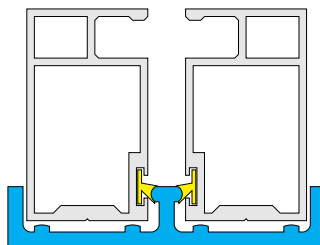

All types of Flyscreen and Sunscreen mesh products can be fabricated into the spline groove.

Outer Profile F1000.x has integral wool pile and strengthened sidewall for hinges and accessories. Midbar profile F1010.x is also shown.

Sliding Option
